

# PALMITOP

Every Drop Matters

# COMPANY PROFILE

**Palmtop** Vegeoil Products Sdn. Bhd. (hereafter referred to as "Palmtop") was incorporated in 1993 in Malaysia and since 2008, established itself as one of the leading manufacturers for edible oils in the Industry. On 15 May 2015, Palmtop became a subsidiary of C.I. Holdings Berhad, a company listed on the Main Board of Malaysian Stock Exchange.

Our group has 5 manufacturing plants located strategically in Pasir Gudang & Port Kelang in Malaysia and have a combined production capacity of 1,000,000 metric tons per annum. In addition, we are accredited with the following certifications in line with our commitment to uncompromising standards:-

- MS 1480:2007 Food Safety according to HACCP System
- MS 1514:2009 Good Manufacturing Practice
- ISO 22000:2005 Food Safety Management Systems Certification
- Malaysian Phytosanitary Certification Assurance Scheme
- HALAL Certificate of Authentication
- KOSHER Certification
- Roundtable on Sustainable Palm Oil (RSPO)
- Malaysian Sustainable Palm Oil (MSPO)

Palmtop, through its Singapore marketing arm, Continental Palms Pte Ltd, provides integrated support in terms of market intelligence and distribution. Led by our Managing Director with 38 years of experience in the Edible Oils & Fats field, the team provides an additional value in terms of

understanding consumer needs in consumer marketing, branding and merchandising of various consumer-packed products in domestic and international markets.

The main goal is to ensure building a robust and sustainable downstream business through our major brands, which are distributed widely, while pursuing to provide quality service and products to a wider global audience.

In this globalised world, we are faced with various risks including logistical, operational, country and financial risk as well as volatility of commodity prices. Our team's success can in part be attributed to the sophisticated risk management process which allows us to manage the risks inherent from sourcing raw materials to end consumers. We seek to mitigate risks for the optimal outcome.

To date, Palmtop is growing exponentially with our product distribution covering more than 105 countries, while continuously working to extend our presence to more areas and target audiences all over the world. Currently our major exports markets are to the African & Middle East Continents. We are devoted to using our expertise and vast experience to serve the dynamic needs of our customers to the best of our abilities. Based on our tagline "Every Drop Matters", our success in the Edible Oils and Fats industry is driven by our commitment to ensure that high quality products are being offered with competitive pricing. Our vision and goals are supported by our people with their commitment to ensure our values and principles are upheld at all times.

## Our Brands

# PALMTOP

We understand the importance of quality products and services therefore we are committed to deliver total market solutions in addition to high quality products.

Our mission is to apply advanced technology to produce the highest quality oils on the market today, and to satisfy our customers with a quality product and optimum service at a fair price.

# OUR VISION

Our vision for the future is geared not only to growing our business, but to help our customers grow their businesses as well. Helping customers achieve their goals influences everything we do.

**W**e take pride in our state of the art technologies to ensure the highest standards in our products.

# PURE VEGETABLE COOKING OIL

Vegetable oils is high in saturated and monounsaturated fats, which makes it an ideal choice for cooking as it is a stable oil for frying as well as maintains natural flavours and taste of food during cooking. Our vegetable oils are suitable for all types of cuisine and for shallow frying. It is stable at high temperature and has a natural source of Vitamin E.

Most importantly, vegetable oils is low in cholesterol and are trans-fat free which make it a healthy choice for all.
